The lower division student has many interests in common with all students, but he especially is affected by issues such as ROTC, and dormitory rules. As a Lower Division Rep. I would work for the following:

1. Voluntary ROTC. Student action (referendum petition, and joint resolutions by all UC student governments) has brought this issue before the Board of Regents. I urge that the Board of Regents respect the overwhelming student objection to the present compulsory program.
2. Students in university dorms must be given a greater voice in the formation of dorm rules and policies.
3. Racial equality in housing and employment must be an objective of student government.
4. The ASUC should actively support the Point Four Corps program. This program allows for the discharge of military obligations through teaching, social work, etc. in underdeveloped countries.
5. The university should expand the new-student orientation program.

How can you, the lower division student, achieve these goals? First, consider the issues. If you find yourselves in agreement with our position -
